

# Protego

OUR SHIELD AGAINST AI EXPLOITATION

## ◆ INTRODUCING PROTEGO ◆

Your Shield Against AI Exploitation

### ◆ What is Protego ◆

A cybersecurity solution that simulates attacks on AI models to detect Model Inversion vulnerabilities, and protect privacy, security, and compliance

### ◆ Why Protect AI ◆

- Data Leaks – Models may expose sensitive info.
- Privacy Risks – Query-based attacks can extract data.
- Compliance – Supports GDPR & HIPAA standards.

### ◆ How It Works ◆

- Attack Simulation – Emulates adversarial queries.
- Reports – Summarizes risks & exposures.
- Defense – Recommends protective strategies.
